

Quality policy

Saimaan Eristys Oy is a leading industrial insulation company, which provides industrial insulation and scaffolding project services and serves as the reseller of industrial materials.

The operational cornerstones of Saimaan Eristys Oy is customer orientation, the continuous improvement of operations and maintaining a profitable business.

Saimaan Eristys Oy performs insulation and scaffolding work according to the needs of each customer and with the highest professional skill, taking into consideration the special requirements of the field and using materials that meet the requirements of applicable standards. Our operations and products and services combine the best materials, a skilled and dedicated staff and long-standing relationships with equipment and material suppliers.

In order to maintain and continuously improve our operations, we have established a quality management system that complies with the requirements of the ISO 9001:2008 standard. The performance of the quality management system is evaluated and improved through internal assessments and target tracking. Personnel training is maintained by means of a functional training plan.

We are committed to fulfilling the aims of our quality policy in every aspect of our operations.

Saimaan Eristys Oy
